the honest, tax paying members of the Locofoco party, whose only object is the public good, declare their intention of voting for HENRY M. FULLER for Canal Commissioner. They say, be placed at his disposal. they will never give their votes, in favor of electing the entire board from one party. A Locofoco of this kind remarked to us the other day, that he would vote for FULLER, "because," said he, "I believe there will be more honesty in the Canal Board when both parties are represented, than when it is composed exclusively of members of one party." We think he is right, and no doubt there are scores of honest Locofocos who entertain the same opinion.

### Assessors of 1849.

By the provisions of the act of 7th of April 1849, "for the regulation and continuance of a system of Education by Common Schools," assessors are required to return to the Commissioners the EXACT NUMBER of taxable citizens of each school district of the county. As the ber of taxables returned, assessors will see the propriety of returning the name of every person coming under that head. Wherever this duty is omitted the school fund of the township is the sufferer. There is another reason why asinhabitant at this time. The duty of apportioning the Senators and Representatives among the several counties of the Commonwealth will devolve upon the Legislature at-the approaching bout being made will form the basis, it is of the utmost importance that the returns should be full and complete, so that we may not be deprived of any portion of the representation to which we are justly entitled.

A nice question may arise as to the authority of the California courts to use the prisons of the District. At any rate, it is not a little curious that they should be obliged to send 5,000 miles to find a jail for the punishment of their criminals.

"The Republic of Sierra Madre."-The New Orleans Patria asserts positively that the plan of separating from Mexico the States this side of the Sierra Madre, and setting up an independent Republic, is still prosecuted with great zeal .-Some 3,000 men, according to this paper, are to establish themselves along the Southern boundary of Texas, procure arms and ammunition, and when the right | this Office. time arrives, cross the Rio Grande and raise the new standard. The plan is said to be most skillfully arranged, and the leaders are provided with funds. The Patria is of opinion that the Round Island assemblage is really destined for Tampico, and has, in reality, nothing to do with the expedition to Cuba.

FINANCES OF THE COMMONWEALTH. Pennsylvania has prospered beyond all precedent under the economical and energetic management of a WHIG AD-MINISTRATION! The report of the State Treasurer gives a most gratifying exhibit of the condition of the finances of the Commonwealth. Notwithstanding the heavy interest payments—the loan of \$261,863 36, contracted for the . payment of the February interest—the sum of \$536,406 10 paid to the Locofoco officers on our public works-and other Government expenses, there was still a surplus of OVER THREE HUN-

DRED THOUSAND DOLLARS in

the Treasury on the 14th alt. After paying the next February interest, and the appropriation for payment of old debts on the public works, and appropriating \$201,438 87 to the Sinking Fund for the LIQUIDATION OF THE STATE DEBT, there will remain in the Treasury, on the 1st of February next, the sum of \$354,226 13, applicable to the completion of the North Branch Canal, under the Act of the Legislature of last winter. Mr. Ball shows most conclusively, that the means of the Treadollar to the State debt : and not only bills. so, but at the same time that ample anpropriations are made to this work to complete it in a few years, THE STATE DEBT WILL BE DECREASED at least \$300,000 the first year, and after the conal is finished, may, by the same judicious management of the finances, be decreased at the rate of nearly \$1,-000,000 A YEAR! and in a larger 1atio from year to year as the debt is gradually reduced. The reduction of the debt being thus commenced, it will not be many years before the three mill tax may be wholly repealed. This encourand energetic management of our present able and patriotic While Adminis-

Contrast this condition of our affairs with what it was a few years ago, (under Locofoco control.) when we had to issue certificates of indebtedness to our Domestic Creditors and sell our property at an immense sacrifice to pay them, and compound the interest on the State Debt zemi-annually, by issuing additional certificates of stock; and what man who has a particle of honor in his bosom, or a spark of Pennsylvania pride in his composition, does not feel rejoiced that the foul reproach of Repudiation has been wiped away, and the honor and credit of our ancient Commonwealth fully re-

How was it when Locofocoism was in the ascendant? Who does not rememcondition of the public Treasury, that an attempt was made by the Locolocos to postpone the payment of the public interest, and thus bring discredit and disgrace upon the Commonwealth. In his message to the Legislature in 1845, Gov. Shunk said, "It is apparent that we are not prepared to resume the payment of our interest in full, and to continue it punctually thereafter." Such was the condition of our linances under the control of the spoils cohorts of Locofocoism. And had it not been for the noble stand taken by the whole Whig delegation in that Legislature, the credit and honor of the State would have been sacrificedthe pirate flag of REPUDIATION would have waved over the Capitoland the fair fame of our good old Commonwealth thus tarnished, could never have been restored-the foul blot could never have been wiped away.

Under the economical management, however, of a WHIG ADMINISTRA-TION, a happy change has taken place. The Treasury is now in a flourishing condition-the revenues have been augmented, and the credit of the State fully by the audience. The degree of A. They afford no relief whatever. From a dull pain it has grown acute and sharp until the fellow fairly dances. Now is the time the confederate appears. A small mahogany box is opened, and a few drops of liquid upon a piece of cotton is inserted in the aching tooth. The pain ceases instantly, the healed man is profuse in his expressions of gratitude, and purchases two or three vials of the inesiimable tooth ache drops. The other vaunts his liquid and soon effects a sale of the contents of his box. The two confederates meet afterwards and divide the

While the Prussian troops were returning from the Danish war, they must needs pass through the free city of Hamburgh, and, as probably foreseen, a quarrel and melee began between them and the inhabitants. For this, Prussia forthwith demanded free quarters for 6,500 troops and 800 horses, and announced that not a stiver would be paid for the accommodations the unfortunate citizens are required to furnish.
